Bordeaux produces some of the finest red wines in the world. This classic red wine comes from the commune of Pujols, in the eastern part of Bordeaux. A small family property of 30 acres, Château Moulin de Peyronin has been a longtime proponent of organic cultivation methods. One of the first organic wines to be imported in the US it has held high the banner of tradition and become the epitome of what you might look for in a Bordeaux: balance, charm, great fruit, smooth tannins upheld by an intelligent use of oak barrels. In other words a great and repeatable wine experience!

This Bordeaux is a classic claret blend, with characteristic black currant, plum and cherry flavors. Fruity, medium-bodied, with smooth tannins, it is well balanced. Eighteen months of oak aging imparts a distinctive vanilla-spice aroma.
