This is a light red that you can chill and enjoy around a barbecue or while dancing on a Summer evening! Great fun, fresh fruit, perfect quaff!

The brothers Julien make some serious wines: the whole range of Mas de Janiny wines attests to their "savoir-faire" in the winemaking area! Another side of them is their love for music and specifically gypsy music. They play and sing with their little band and have created this "Temps des Gitans" to go together with the festive atmosphere found in the bars and taverns of southern France where they get together with like minded souls. This is a fun, light-hearted wine, meant to be drunk young, fresh and fast! It won't give you a headache but will certainly put you in the right mood to appreciate the gypsy side of Life!
