Alexis Sauvion is a very dedicated man. To the Earth, to his vineyard, to a certain idea and ideal of how man needs to find his place and balance among the living organisms, plants and animals, he is supposed to care for. Following Biodynamic principles he has patiently created and developed a well proportioned vineyard (60 acres) producing equally balanced wines. Grapes are always hand picked.

Remarkable Muscadet from a forward thinker of the region. A light and dry wine with pleasant acidic balance. An easy marriage with seafood or pasta.

Great Vintage with a balance of flavors toward the citrus side. Clean, straight, impeccable

VEGAN - Certified Organic Grapes
